

Examination into the soundness of the North Somerset Site Allocations Plan: Proposed Modifications

Inspector's note to North Somerset Council

Thank you for sending to me the proposed amendments to the SAP.

I consider that it would now be appropriate to carry out public consultation on the Council's proposed modifications.

Once the consultation period is complete, can the Council provide me with a set of the representations made in response to the proposed modifications, together with their summary of the main issues raised and their response to those issues.

Wendy Burden

Inspector
