

Pier to Pier Way - Opening early 2023

The Weston-super-Mare to Clevedon Pier to Pier Way is a new 13-mile route designed to appeal to commuters, leisure users and tourists alike. It consists of quiet roads and new or improved traffic-free sections and is a long-sought-for 'missing link' and the central section of the North Somerset Coastal Towns Cycle Route, connecting Weston-super-Mare and Clevedon, overcoming the barrier of the M5, avoiding the busy A370, and saving 4-miles.

-  Traffic-free route
-  On-road route
-  Indicative route for continuation of North Somerset Towns Coastal Cycle Route (Brean to Bristol)
-  Recommended car parking, for those that require it
