

North Somerset Health and Wellbeing Board

Supplementary Statement to the North Somerset Pharmaceutical Needs Assessment (2022-25)

Issuing of PNA supplementary statement:

North Somerset Health and Wellbeing Board and North Somerset PNA steering group have issued this PNA supplementary statement in accordance with regulatory requirements set out within the DHSC guidance issued in 2021¹.

This supplementary statement has been published to explain changes to the availability of pharmaceutical services where:

(a) the changes are relevant to the granting of an application or applications for inclusion in the pharmaceutical list for the area of North Somerset's health and wellbeing board's area; and

(b) North Somerset's health and wellbeing board is satisfied that producing a new pharmaceutical needs assessment would be a disproportionate response to those changes or it is already producing its next pharmaceutical needs assessment but is satisfied that it needs to immediately modify the existing document in order to prevent significant detriment to the provision of pharmaceutical services.

Date North Somerset pharmaceutical needs assessment (PNA) published: 30th September 2022.

Date supplementary statement issued: 26th February 2024.

The following pharmacy has closed:
