

Hewish and Puxton Village Hall

A grant was awarded to Hewish and Puxton village hall for refurbishment which has improved facilities for all users of the village hall.

The village hall received the grant for digital improvements including a DVD player, projector and screen and improved WiFi. Local groups such as the WI and scouts will benefit from an internet connection and in addition the facilities will enable other events to be held at the hall. The photo shows a 24 hour classical guitar sight reading marathon which was held at the hall in aid of the Alzheimer's Society: the event was live screened using the new facilities.

The grant money also contributed towards new front doors. These have created a more welcoming entrance to the building as well improving security.
