

# Heaven Coffee House

## Heaven Coffee House Expansion

Heaven Coffee House, located in Backwell, has been in operation for just over a year. The café was initially only able to open in the mornings with a limited coffee and cake offering due to the lack of essential kitchen equipment. Rural England Prosperity funding has enabled the café to increase its hours and expand its offering through the purchase of a range of essential kitchen equipment for the front of house and main kitchen. The kitchen upgrade now enables the cafe to provide a wider range of products including hot food such as breakfast and lunch and to expand into an evening bistro. Extending the hours makes the cafe a more attractive meeting place. The cafe has ambitions to host a range of meetings and events such as parent and toddler, knitting groups, craft groups and workshops.

Thanks to the funding, the café is now in a far more sustainable financial position, able to create new job opportunities and better serve the local community with a key focus on being a viable and attractive community meeting space and evening venue.
